2.8.2 Other relevant Information

A baláta állomány lappang, a kedvezőbb vízellátású években sem mindig található meg. Az értékelt időszakban előkerült egy Natura 2000 területen kívül eső, kevés egyedszámú állomány is. Utóbbi lappangva régebb óta jelen lehetett, megjelenését a záródott erdő kivágása és így az árnyékhatás megszűnte idézhetett elő. A terület erősen átalakulóban van, szárad, újra erdősül.
