Visegrad Group – Nature Conservation Workshop
Budapest, Hungary, 27 May 2014

Ranking of habitat types

Draft pre-scoping document (10 December, 2013)

method:

- Article 17 report data of 2001-2006
- criteria system: affected MS (A); conservation status (B) and trend (C)

results: 22 habitat types (6 habitats group)

Habitats, species and issues selection document (26 February, 2014) – based on MS ,voting’

- draft for the Steering Committee meeting discussion
 - after the meeting list with 52 habitats (April)
 - new list with 56 habitats (14 May)

Selected habitat types by „Pannonian” MS (top20)

Nr.	Code	Name (short version)	HGroup	CZ	HU	RO	SK	PL	Sum	Cont	list52	list56	ETC
