

Report on the main results of the surveillance under article 11 for annex II, IV and V species (Annex B)

0.1 Member State	HU
0.2.1 Species code	2156
0.2.2 Species name	Linum dolomiticum
0.2.3 Alternative species scientific name	N/A
0.2.4 Common name	pilisi len

1. National Level

1.1 Maps

1.1.1 Distribution Map	Yes
1.1.1a Sensitive species	No
1.1.2 Method used - map	Complete survey/Complete survey or a statistically robust estimate (3)
1.1.3 Year or period	2010-
1.1.4 Additional map	No
1.1.5 Range map	Yes

2. Biogeographical Or Marine Level

2.1 Biogeographical Region

Pannonian (PAN)

Dobolyi, K., Erős-Honti, J. and Botta-Dukát, Z. (2008): Habitat preference of Linum dolomiticum (Linaceae).- Studia bot. hung. 39, pp. 135–144
A Nemzeti Biodiverzitás-monitorozó Rendszer keretében 2007-2012 között végzett felmérések kutatási jelentései

2.3 Range

2.3.1 Surface area - Range (km ²)	100
2.3.2 Method - Range surface area	Complete survey/Complete survey or a statistically robust estimate (3)
2.3.3 Short-term trend period	2001-2012
2.3.4 Short-term trend direction	stable (0)
2.3.5 Short-term trend magnitude	min max
2.3.6 Long-term trend period	N/A
2.3.7 Long-term trend direction	min max
2.3.8 Long-term trend magnitude	area (km ²) operator unknown method approximately equal to (≈) No
2.3.9 Favourable reference range	

2.3.10 Reason for change

2.4 Population

2.4.1 Population size (individuals or agreed exception)	Unit	number of individuals (i)		
	min	20000	max	30000

2.4.2 Population size (other than individuals)	Unit	N/A		
	min		max	

2.4.3 Additional information	Definition of locality
	Conversion method
	Problems

Report on the main results of the surveillance under article 11 for annex II, IV and V species (Annex B)

2.4.4 Year or period	2010		
2.4.5 Method – population size	Complete survey/Complete survey or a statistically robust estimate (3)		
2.4.6 Short-term trend period	2001-2012		
2.4.7 Short term trend direction	stable (0)		
2.4.8 Short-term trend magnitude	min	max	confidence interval
2.4.9 Short-term trend method	Complete survey/Complete survey or a statistically robust estimate (3)		
2.4.10 Long-term trend period	N/A		
2.4.11 Long term trend direction	min	max	confidence interval
2.4.12 Long-term trend magnitude	N/A		
2.4.13 Long-term trend method	number		
2.4.14 Favourable reference population	operator	approximately equal to (≈)	
	unknown	No	
	method		
2.4.15 Reason for change	Improved knowledge/more accurate data Use of different method		

2.5 Habitat for the Species

2.5.1 Surface area - Habitat (km ²)	0,04				
2.5.2 Year or period	2010				
2.5.3 Method used - habitat	Complete survey/Complete survey or a statistically robust estimate (3)				
2.5.4 a) Quality of habitat	Good				
2.5.4 b) Quality of habitat - method	figyelembe vett körülmények: célzott természetvédelmi kezelés pozitív eredményei, taposás				
2.5.5 Short term trend period	2001-2012				
2.5.6 Short term trend direction	increase (+)				
2.5.7 Long-term trend period	N/A				
2.5.8 Long term trend direction	0,04				
2.5.9 Area of suitable habitat (km ²)					
2.5.10 Reason for change	Improved knowledge/more accurate data				

2.6 Main Pressures

Pressure	ranking	pollution qualifier(s)
damage caused by game (excess population density) (F03.01.01)	low importance (L)	N/A
Trampling, overuse (G05.01)	high importance (H)	N/A

2.6.1 Method used – pressures based exclusively or to a larger extent on real data from sites/occurrences or other sources

2.7 Main Threats

Threat	ranking	pollution qualifier(s)
damage caused by game (excess population density) (F03.01.01)	low importance (L)	N/A
Trampling, overuse (G05.01)	high importance (H)	N/A

2.7.1 Method used – threats expert opinion (1)

2.8 Complementary Information

2.8.1 Justification of % thresholds for trends

2.8.2 Other relevant Information Az egyedszám meghatározásának módszere változott.

Report on the main results of the surveillance under article 11 for annex II, IV and V species (Annex B)

2.8.3 Trans-boundary assessment

2.9 Conclusions (assessment of conservation status at end of reporting period)

2.9.1 Range assessment Favourable (FV)
qualifiers N/A

2.9.2. Population assessment Favourable (FV)
qualifiers N/A

2.9.3. Habitat assessment Favourable (FV)
qualifiers N/A

2.9.4. Future prospects assessment Favourable (FV)
qualifiers N/A

2.9.5 Overall assessment of Conservation Status Favourable (FV)

2.9.5 Overall trend in Conservation Status N/A

3. Natura 2000 coverage and conservation measures - Annex II species

3.1 Population

3.1.1 Population Size Unit number of individuals (i)
min 20000 max 30000

3.1.2 Method used Complete survey/Complete survey or a statistically robust estimate (3)

3.1.3 Trend of population size within N/A

3.2 Conversation Measures

3.2.1 Measure	3.2.2 Type	3.2.3 Ranking	3.2.4 Location	3.2.5 Broad Evaluation
Other species management measures (7.0)	Recurrent	high importance (H)	Inside	Enhance Long term
Specific single species or species group management measures (7.4)	Legal	low importance (L)	Inside	Maintain Enhance Long term
Maintaining grasslands and other open habitats (2.1)	Contractual	high importance (H)	Inside	Enhance Long term
Adapt forest management (3.2)	Administrative	high importance (H)	Inside	Enhance Long term
Regulation/ Management of hunting and taking (7.1)	Recurrent	high importance (H)	Inside	Enhance Long term

**Térképmelléklet az élőhelyvédelmi irányelv 17. cikke alapján készített országjelentéshez
2013.**

***Pilisi len** (*Linum dolomiticum*)

II., IV. melléklet
