Comments	The animals had been set free after 2 weeks

**Derogation (HorvathL-H-81-2012053108010283) (user identity: HorvathL)
(user derogation reference:)**

Directive	http://rod.eionet.europa.eu/obligations/268 (habitats)
Licensing authority	Közép-dunántúli KTVF
License valid from	2011-06-19
License valid until	2011-09-30
Sensitive	false
Number of licenses	1
Species	Spermophilus citellus
Justification for derogation	
Bio geographical region	Pannonian

Region	Kozep-Dunantul
Location	Tihany, Taliándörögd, Szentkirályszabadja, Hajmáskér, Öskü, Pécsely, Úrkút, Szentjakabfa, Várpalota
Alternatives assessed	There were no alternatives assessed.
Permitted activities	Transport Capture
Permitted methods	Selective methods Moving motor vehicles
License reasons	For the protection of wild fauna For the purposes of repopulating these species For the purposes of re-introducing these species
Strictly supervised conditions	
Selective basis	
Licensed	Individuals: 0; Eggs: 0; Breeding sites: 0; Resting sites: 0; Others (unit): ; Others (number): 0 Justification (if no values given): The number of individuals was not defined in the license.
Actually taken	Individuals: 0; Eggs: 0; Breeding sites: 0; Resting sites: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 123500; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	A report/summary must be handed in until 30.09.2011. The licensee must provide the possibility for ad-hoc control. The authority must be informed five days before the start of the activities.
Comments	The capture, transport and the relocation must be humanly, no individuals can be harmed. Before the relocation holes must be drilled at the new habitat, which must provide equal special environmental conditions. The relocated animals must be tended through 72 hours to protect them from predators. Individuals incidentally injured, must get attendance. Accidentally died individuals' body must be frozen, and after the authority's action, be taken care of. The capture/trapping can only be started under the supervision of an expert. The license, or a copy of it must be kept at the place of the activities. Only as many individuals can be captured, to ensure that the old habitat stays stable. The licensee must obtain contributions from the properties' owners. The captured and relocated individuals remain in the property of the state. The reporting commitment was fulfilled no gophers were actually

	relocated.

Licensed	Individuals: 0; Eggs: 0; Breeding sites: 0; Resting sites: 0; Others (unit): ; Others (number): 0 Justification (if no values given): The number of individuals was not defined in the license.
Actually taken	Individuals: 117; Eggs: 0; Breeding sites: 0; Resting sites: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 123500; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	A report/summary must be handed in until 30.09.2012. The licensee must provide the possibility for ad-hoc control. The authority must be informed five days before the start of the activities.
Comments	The activities can only take place between 15.07.2012 and 14.08.2012. The capture, transport and the relocation must be humanly, no individuals can be harmed. Before the relocation holes must be drilled at the new habitat, which must provide equal special environmental conditions. The relocated animals must be tended through 72 hours to protect them from predators. Individuals incidentally injured, must get attendance. Accidentally died individuals' body must be frozen, and after the authority's action, be taken care of. The capture/trapping can only be started under the supervision of an expert. The license, or a copy of it must be kept at the place of the activities. Only as many individuals can be captured, to ensure that the old habitat stays stable. The licensee must obtain contributions from the properties' owners. The captured and relocated individuals remain in the property of the state. The reporting commitment was fulfilled, 117 individuals were relocated.

License reasons	For the protection of wild fauna For the purposes of repopulating these species

	For the purposes of re-introducing these species
Strictly supervised conditions	
Selective basis	
Licensed	Individuals: 0; Eggs: 0; Breeding sites: 0; Resting sites: 0; Others (unit): ; Others (number): 0 Justification (if no values given): The number of individuals was not defined in the license; relocation had to be done because the groundworks.
Actually taken	Individuals: 46; Eggs: 0; Breeding sites: 0; Resting sites: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 123500; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	The Balaton-Uplands National Park must be informed five days before the locality measurement. The National Park and the authority must be informed seven days before the start of the activities. After the relocation, the new locality must be measured each year, until 31 of July in three years time. A report/summary must be handed in until 30.09.2011.
Comments	The area must be strictly measured before the start of the activities, and test captures must be done in the spring season. The activities (capture and relocation) can only happen between 08.04.2011 and 20.04.2011 as well as between 19.07.2011 and 20.07.2011. All individuals must be captured in the original habitat, before doing groundworks in the area. The capture/trapping can only be started under the supervision of an expert. The license, or a copy of it must be kept at the place of the activities. The capture, transport and the relocation must be humanly, no individuals can be harmed. The gophers cannot be flushed from their holes. Before the relocation holes must be drilled at the new habitat, which must provide equal, special conditions. The relocated animals must be safe kept through 24 hours to protect them from predators. Individuals incidentally injured, must get attendance. Accidentally died individuals' body must be frozen, and later handed over to the National Park. The reporting commitment was fulfilled, 46 individuals were relocated, none of them died during the activities.
