Species	Scolopax rusticola
Region	Del-Alfold
Location	38 hunting area
Alternatives assessed	There were no alternatives assessed.
Permitted activities	

Permitted methods	Hunting weapons
License reasons	To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking of certain specimens of the species listed in Annex IV in limited numbers specified by the competent national authorities
Strictly supervised conditions	Control of the Hunting Authority by checking of the hunting diary.
Selective basis	In order to get a hunting license hunters need to pass an exam where recognition of game species is required. In the locations permitted in the derogation for Scolopax rusticola hunting no similar species occur regularly. Traditional hunting of Scolopax rusticola is exercised at dawn and dusk when roding behavior of the species is unique.
Licensed	Individuals: 495; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Actually taken	Individuals: 350; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 0; Breeding pairs: 0; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	Ad hoc control of the Ranger Service.
Comments	The monitoring of the migrant population started in 2010 and aims to follow the trends rather than the absolute population size due to the secretive behavior of the species.

License valid until	2011-04-10
Sensitive	false
Number of licenses	17
Species	Scolopax rusticola
Region	Del-Dunantul
Location	17 hunting area
Alternatives assessed	There were no alternatives assessed.
Permitted activities	
Permitted methods	Hunting weapons
License reasons	To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking of certain specimens of the species listed in Annex IV in limited numbers specified by the competent national authorities
Strictly supervised conditions	Control of the Hunting Authority by checking of the hunting diary.
Selective basis	In order to get a hunting license hunters need to pass an exam where recognition of game species is required. In the locations permitted in the derogation for Scolopax rusticola hunting no similar species occur regularly. Traditional hunting of Scolopax rusticola is exercised at dawn and dusk when roding behavior of the species is unique.
Licensed	Individuals: 158; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Actually taken	Individuals: 99; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 0; Breeding pairs: 0; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	Ad hoc control of the Ranger Service.
Comments	The monitoring of the migrant population started in 2010 and aims to follow the trends rather than the absolute population size due to the secretive behavior of the species.

License reasons	For the protection of wild fauna
Strictly supervised conditions	
Selective basis	
Licensed	Individuals: 540; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Actually taken	Individuals: 72; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 139000; Breeding pairs: 69500; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	Ad hoc control of the Ranger Service, control of the hunting diary.
Comments	

Derogation (mgszh-B-93-2012081415215323) (user identity: mgszh) (user derogation reference:)

Directive	http://rod.eionet.europa.eu/obligations/276 (birds)
Licensing authority	Fejér Megyei Kormányhivatal
License valid from	2011-02-12
License valid until	2011-04-10
Sensitive	false
Number of licenses	24
Species	Scolopax rusticola
Region	Kozep-Dunantul
Location	24 hunting area
Alternatives assessed	There were no alternatives assessed.
Permitted activities	
Permitted methods	Hunting weapons
License reasons	To allow, under strictly supervised conditions, on a selective basis and to a limited extent, the taking of certain specimens of the species listed in Annex IV in limited numbers specified by the competent national authorities
Strictly	Control of the Hunting Authority by checking of the hunting diary.

supervised conditions	
Selective basis	In order to get a hunting license hunters need to pass an exam where recognition of game species is required. In the locations permitted in the derogation for Scolopax rusticola hunting no similar species occur regularly. Traditional hunting of Scolopax rusticola is exercised at dawn and dusk when roding behavior of the species is unique.
Licensed	Individuals: 317; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Actually taken	Individuals: 161; Eggs: 0; Nests: 0; Others (unit): ; Others (number): 0
Population size	Individuals: 0; Breeding pairs: 0; Others (unit): ; Others (number): 0
Impact on population	The derogations are not detrimental.
Supervisory measure	Ad hoc control of the Ranger Service.
Comments	The monitoring of the migrant population started in 2010 and aims to follow the trends rather than the absolute population size due to the secretive behavior of the species.
