

Annex B - Bird Species' status and trends report (Article 12)

1. Species information

1.1 Member State	Hungary
1.2 Species code	A168
1.3 EURING code	5560
1.4 Species scientific name	Actitis hypoleucos
1.5 Subspecific population	
1.6 Alternative species scientific name	
1.7 Common name	billegetőcankó
1.8 Season	Breeding (B)

2. Population size

2.1 Year or period	2013-2018
2.2 Population size	a) Unit number of pairs (p) b) Minimum 80 c) Maximum 120 d) Best single value
2.3 Type of estimate	Best estimate
2.4 Population size Method used	Based mainly on extrapolation from a limited amount of data
2.5 Sources	National park directorates' databases Consultation with national experts. http://map.mme.hu/maps/map2
2.6 Change and reason for change (since previous report)	Improved knowledge/more accurate data Use of different method The change is mainly due to: Use of different method
2.7 Additional information	New method: Under the KEHOP-4.3.0-15-2016-00001 project in 2017-2018, 530 2.5x2.5 km ² grids were surveyed for a given set of breeding bird species, covering 3.6% of the country. Although not originally included among the target species, 3 breeding pairs of the Common sandpiper were estimated for the 530 grids (due to the scarcity of the species, it is quite certain that all observations of breeding were recorded). As the habitat distribution in the 530 grids is considered to be representative of the country, 88 pairs can be calculated for the national population. This figure, corrected with the data in the reports of the National park directorates, was used here as the minimum population, with regard to our previous report.

3. Population trend

3.1 Short-term trend (last 12 years)

3.1.1 Short-term trend Period	2007-2018
3.1.2 Short-term trend Direction	Stable (0)
3.1.3 Short-term trend Magnitude	a) Minimum b) Maximum c) Best single value

Annex B - Bird Species' status and trends report (Article 12)

3.1.4 Short-term trend Method used

Based mainly on expert opinion with very limited data

3.3 Additional information

4. Breeding distribution map and size

4.1 Sensitive species

No

4.2 Year or period

2013-2018

4.3 Breeding distribution map

Yes

Annex B - Bird Species' status and trends report (Article 12)

4.4 Breeding distribution surface area	1967
4.5 Breeding distribution Method used	Complete survey or a statistically robust estimate
4.6 Additional maps	No
4.7 Sources	National park directorates' databases http://map.mme.hu/maps/map2
4.8 Additional information	

5. Breeding range trend

5.1 Short-term trend (last 12 years)

5.1.1 Short-term trend Period	2007-2018
5.1.2 Short-term trend Direction	Unknown (X)
5.1.3 Short-term trend Magnitude	a) Minimum b) Maximum c) Best single value
5.1.4 Short-term trend Method used	Insufficient or no data available
5.1.5 Sources	National park directorates' databases http://map.mme.hu/maps/map2 MME Nomenclator Bizottság (2008): Magyarország madarainak névjegyzéke. Nomenclator avium Hungariae. Magyar Madártani és Természetvédelmi Egyesület, Budapest. 189-190 p.

5.2 Long-term trend (since c. 1980)

5.2.1 Long-term trend Period	1980-2018
5.2.2 Long-term trend Direction	Unknown (X)
5.2.3 Long-term trend Magnitude	a) Minimum b) Maximum c) Best single value
5.2.4 Long-term trend Method used	Insufficient or no data available
5.2.5 Sources	Haraszthy L. (szerk.) (1984): Magyarország fészkelő madarai. Natura, Budapest. 52-53 p. Magyar G., Hadarics T., Waliczky Z., Schmidt A., Nagy T. & Bankovics A. 5.3 Additional information

6. Progress in work related to international Species Action Plans (SAPs), Management Plans (MPs) and Brief Management Statements (BMSs)

Annex B - Bird Species' status and trends report (Article 12)

6.0 Is/Will the information related to international SAPs, MPs and BMSs (section 6) be provided for the other season for this species?	No
6.1 Type of international plan	No plan (NA)
6.2 Has a national plan linked to the international SAP/MP/BMS been adopted?	No
6.3 If 'NO', describe any measures and initiatives taken related to the international SAP/MP/BMS	
6.4 Assessment of the effectiveness of SAPs for globally threatened species (Art. 12, Species Action Plans)	()
6.5 Assessment of the effectiveness of MPs for huntable species in non-Secure status (Articles 3 and 7, Management Plans)	()
6.6 Sources of further Information	

7. Main pressures and threats

a) Pressure	b) Ranking	c) location
Extraction of minerals (e.g. rock, metal ores, gravel, sand, shell) (C01)	H	inside the Member State (inMS)
Sports, tourism and leisure activities (F07)	M	inside the Member State (inMS)
Modification of flooding regimes, flood protection for residential or recreational development (F28)	H	inside the Member State (inMS)
Mixed source pollution to surface and ground waters (limnic and terrestrial) (J01)	M	inside the Member State (inMS)
Modification of hydrological flow (K04)	H	inside the Member State (inMS)
Physical alteration of water bodies (K05)	H	inside the Member State (inMS)
Other climate related changes in abiotic conditions (N09)	M	inside the Member State (inMS)

a) Threat	d) Ranking	e) location
Extraction of minerals (e.g. rock, metal ores, gravel, sand, shell) (C01)	H	inside the Member State (inMS)
Sports, tourism and leisure activities (F07)	M	inside the Member State (inMS)
Modification of flooding regimes, flood protection for residential or recreational development (F28)	H	inside the Member State (inMS)
Mixed source pollution to surface and ground waters (limnic and terrestrial) (J01)	M	inside the Member State (inMS)
Modification of hydrological flow (K04)	H	inside the Member State (inMS)

Annex B - Bird Species' status and trends report (Article 12)

Physical alteration of water bodies (K05)	H	inside the Member State (inMS)
Other climate related changes in abiotic conditions (N09)	M	inside the Member State (inMS)

7.2 Sources of information

7.3 Additional information

8. Main Conservation Measures

8.1 Status of measures

Measures identified and taken

8.2 Main purpose of the measures taken

☑ Maintain the current distribution, population and/or habitat for the species

8.3 Location of the measures

Both inside and outside Natura 2000

8.4 Response to the measures

Medium-term results (within the next two reporting periods, 2019-2030)

8.5 List of main conservation measures

CC01 - Adapt/manage extraction of non-energy resources

CF03 - Reduce impact of outdoor sports, leisure and recreational activities

CF10 - Manage changes in hydrological and coastal systems and regimes for construction and development

CJ01 - Reduce impact of mixed source pollution

CJ03 - Restore habitats impacted by multi-purpose hydrological changes

8.6 Additional information

9. Natura 2000 (SPAs) coverage

9.1 Population size inside the Natura 2000 (SPA) network

a) Unit	number of pairs (p)
b) Minimum	20
c) Maximum	30
d) Best single value	

9.2 Type of estimate

Best estimate

9.3 Population size inside the network Method used

Based mainly on expert opinion with very limited data

9.4 Short-term trend of population size within the network Direction

Stable (0)

9.5 Short-term trend of population size within the network Method used

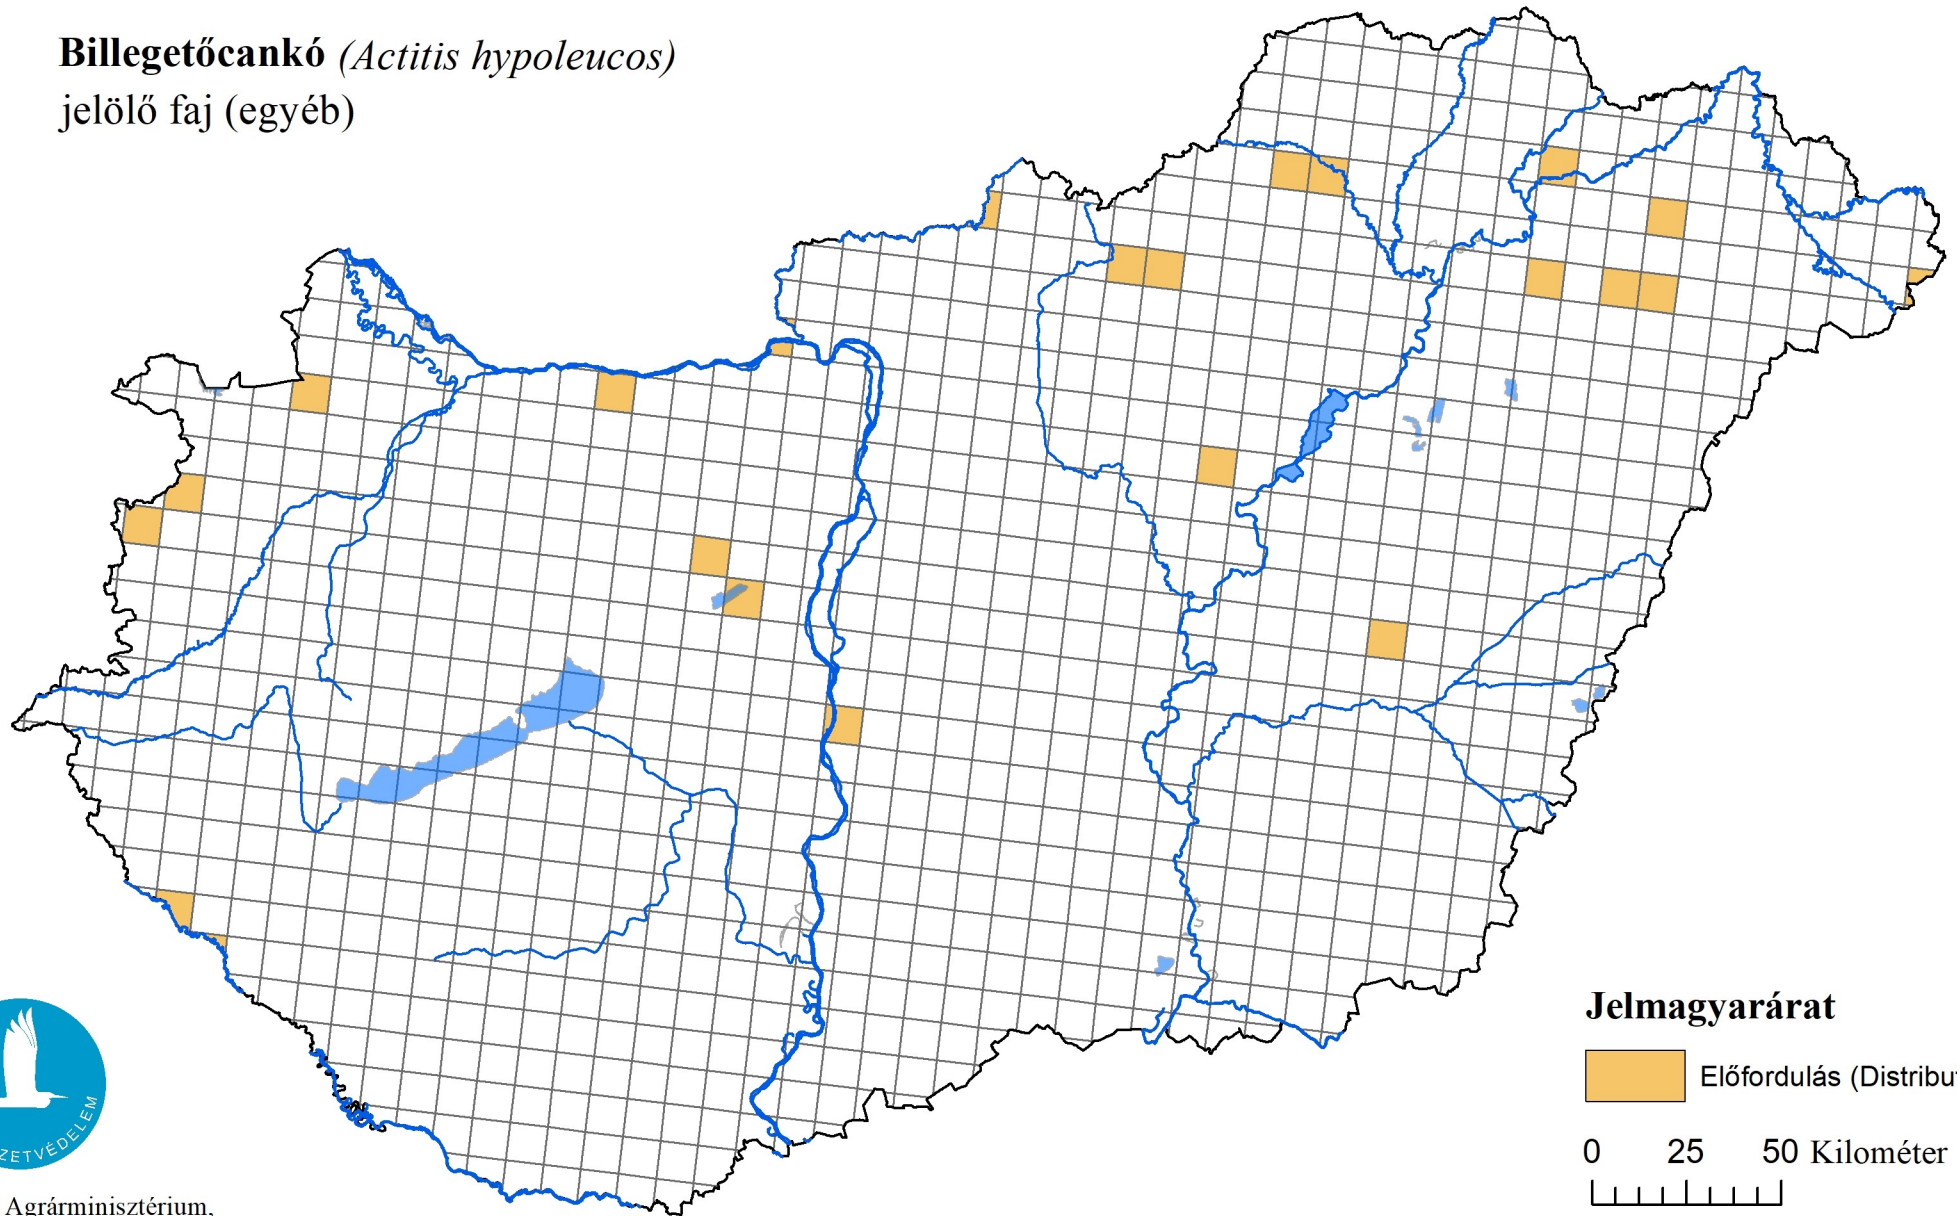

Based mainly on expert opinion with very limited data

9.6 Additional information
